Hun Effort To Crush Italy Is Great Failure

End of Struggle in Northern Italy Not Yet in Sight—Reinforcements are Pouring in for Big Struggle.

LONDON, NOV. 28.—Germany's great plan to crush Italy as Servia and Roumania were conquered has ended in failure according to belief expressed in military and diplomatic circles today.

However, the end of the struggle in Northern Italy is not yet in sight and the Germans and Austro-Hungarians can be counted upon to make even mightier efforts than they have up to date to break thru the Italian base lines on the Piave river and on the Asiago plateau.

Both sides are preparing for a greater struggle. Reinforcements of men and guns are pouring across the Austrian frontier into Italy to strengthen the invading hordes while the Alpine roads leading down from France into Italy are choked with masses of French and British veterans, trains of

Prussians Look Forward To The Next Great War

Germany's Hope Of Victory Is Gone, But Militarists Already are Laying Plans for New War in Future.

(International News Service)

THE HAGUE, NOV. 28.—With Germany facing inevitable defeat in the great world conflict now raging, Prussian militarists are already looking forward to "The next war."

There is a big question whether the German people will be in a frame of mind after this war to tolerate preparations for another holocaust of arms, even if the entente governments would permit it.

Nevertheless indications are filtering out of Germany that the war lords, both great and small, are looking, even at this time when Europe runs red with blood, into the future with belligerent glances.

An insight into the war-sodden minds of Prussian militarists is given by a book just published in Germany called "Deductions from the world

First Ohio Draft Men To Go Across Given Big Sendoff

Selects Discard Excess Baggage With Tears as 408th Motor Supply Train Prepares to Embark for France.

(International News Service)

CAMP SHERMAN, O., NOV. 28.—Big, strong men—men who have been selected as the first to leave this cantonment for "over there"—cried today as they packed up their personal belongings to send them home, in compliance with orders to reduce baggage.

Four pairs of socks, three pairs of woolen underwear, an extra suit, an overcoat, half a "pup" tent and blankets—that is the "limit of baggage allowed" to each man in the 408th motor supply train. It gripped one's hearstrings to see the husky lads as they laid aside furlined military overcoats, sweaters knitted by loving hands, home made scarfs, military brushes, and other things which have helped to make life more comfortable in camp. Letters from The Girl were read, re-read, tied up in bundles and then burned.

Meanwhile Captain F. E. Frazier, commander of the unit was weeding out the unit and adding new men in their places. Transfers of 32 men to the 408th ammunition train, which goes when the division leaves for France, were made from Frazier's six companies.

The train was given a rousing sendoff last night at the Main "Y" by other boys in camp.

More than 7,000 of the drafted men in camp left today on two day furloughs, where they planned a grand assault on home cooking.

Benjamin Cowell, of Cleveland, assistant secretary of war and Major General Chamberlain, inspector general of the U. S. army, witnessed a review of the division, today, the third review since the camp was opened.

Everything is in readiness for friends and relatives of drafted men who wish to visit them in the Red Cross community house here tomorrow.

FIGHT IS RAGING AT GATES OF CAMBRAI

Fall of the German Key Position Imminent, Say Military Critics.

Terrific Artillery Fire Presages Another Great Battle Today.

(International News Service)

LONDON, NOV. 28.—Violent fighting with bayonet and bomb for possession of the villages of Fontaine Notre Dame and Bourlon, three miles west of Cambrai, was reported today.

Advices from the front told fierce hand to hand struggles among the ruined houses of these villages, amidst storms of steel and snow.

The Germans are constantly being reinforced, many of the fresh troops coming from the eastern front and are evidently determined to fight to the last gasp before they give up their key position at Cambrai.

When Cambrai falls, a military critic believe it soon will, Lille will be in grave danger.

There is every indication that another big battle is pending in Belgium.

Terrific artillery duels have been raging in the sector of Houlslot wood, near Passchdaele, where British and French armies have been battering the German positions with sledge hammer blows.

Separate Peace For Russia Is Believed Lenine's Next Step

Actual Conclusion of Peace With Germany is Matter of Days Only—Russian People Will Not Submit.

(International News Service)

(International News Service)

CHILLICOTHE, O., NOV. 28.—Robbery of $250,000, the payroll of the camp Sherman plumbers, yesterday afternoon, was halted when one member of the gang got "cold feet" and tipped the police off beforehand, it became known today. Tuesday Was Red Cross Banner Day

Tuesday was banner day in the Red Cross work room with 102 women in attendance. The appeal for more workers to make possible the sorely needed increased output is being responded to splendidly. But still the plea is for more sweaters, more hospital supplies of all kinds, more workers.

The responsibility for this work does not rest upon a few women but upon all; the need will not be met until all respond.

The demand for sweaters is particularly insistent. Word from Red Cross headquarters in Washington is to the effect that it is impossible to meet the demands made upon it by the various camps and cantonments in this country to say nothing of the appeal for help from Major Murphy for the civilian population of France.

It is vital that the Lake Division to which Coshocton belongs produce the largest possible number of sweaters, wrislets and socks at the earliest possible moment. Coshocton knitters will not want to miss this great opportunity for service.

court confirmed the report of the referee, T. H. Wheeler sustaining the report of the receiver Dr. H. R. McCurdy to which the sanatarium company filed exceptions some time ago. The court awarded $25 to the receiver for his services in the case and $500 to Joseph McDowell as attorney for the receiver.

The case of W. H. Daniels vs. James A. Briggs was dismissed by the court in compliance with a motion from the plaintiff for dismissal.

S. A. Emerson vs. the Village of Newcomerstown was the next case to come before the court. Lloyd S. Leech was appointed as referee in the case and ordered to make a report to the court within a reasonable period of time.

In the case of Abraham Markley vs. W. H. H. Adams a judgment was rendered for the plaintiff sustaining the verdict of the common pleas court from which the case was appealed.

The next case was that of Snyder vs. McVey. The court gave a verdict for the defendant in this case affirming the judgment of the court of common pleas from which this case was appealed.

The case of Christian Sheneman vs. Frank V. Corraz was the last on the docket. The judgment of the lower court was also affirmed in this case with one modification. The modification was that the interest due the plaintiff in the case modified because of the fact that the judgment rendered by the court was not given until eight months after the verdict had been rendered by the court.

Following this case the court was declared adjourned. Altho the session was a short one, lasting hardly a complete day a great amount of work was completed by the judges. Some of the cases completed have been dragging thru the court here for extended periods.

that somewhere back in his home town there is someone grieving if he doesn't write at regular intervals.

Forty percent of the men who join the army are just lukewarm in their protestations of devotion to God. At least thirty per cent of these become actually converted and brought to a realization of the true meaning of the worship of God thru contact with the men placed in charge of the K. of C. and Y. M. C. A. buildings at the camps.

Is this work worthy of the money which the people of Coshocton county and of many other counties are giving? The answer is very apparent in the increased number of conversions alone, to say nothing of the many hearts at home that are relieved from anxiety by the work that these men are doing.

Not only is the work worthy but the men who are carrying it on are equal to their task. Confronted with a burden that would make most men falter and shrink from the task these men started in with an energy seldom found in any enterprise and are giving of their time and money to help lift a little of the burden that is on America in these times of war.

The appeal for the help of every individual in proportion to their means is going out. "Don't forget that in turning down these solicitors for this fund that you may be keeping someone who is near and dear to you from having a few of the comforts of home while fighting the greatest fight of the ages," is one of the pleas being made for the support of every individual by the members of the different campaign teams.

Any point which is not fully understood will be explained if the person desiring information will call T. J. Hanley, chairman of the executive committee.

BIG, PATRIOTIC, TIMELY, UNIQUE, IS "OVER HERE."

Every patriot will want to see "Over Here." Every father, mother, brother, sister, sweetheart or friend of a fighting man, will want to see this picturesque screen record of the building of an army cantonment.

Everybody will want to see the huge army trucks working at top speed, the hustle, bustle and hurry of the place that seems like confusion but that is really the best sort of order. Everybody will want to see the calm countryside transformed into an armed camp with a speed that gives promise of a tremendous jolt for the Kaiser when the speedy, energetic Americans join in the big smash over the sea.

"Over Here" will be shown at the Pastime and Utahna Theatres on Thanksgiving Day, matinee and night. Come early as there will be a terrific rush to see this production.

TO ATTEND DRY MEET AT COLUMBUS WEDNESDAY

Frank Karr, chairman of the Coshocton county dry federation, will attend the conference of temperance workers of Ohio to be held in Columbus Wednesday. The meeting has been called by the state campaign committee of the Ohio Dry Federation.

The conference will be held at 9 o'clock, in the Central M. E. church Fourth and Broad streets, Columbus. The committee aims to have a representation from each county organization present. The questions for discussion and settlement will be "Time of the next battle," and "The going into effect of the amendment if adopted," all matters relative to the plan of organization and any subject matter essential for the prosecution of a successful campaign. All of these important matters were discussed before the Committee, and it was the unanimous opinion that this representative conference should be had with all the workers interested.

The vote in the last election is as follows—523,727 against, and 522,599 for prohibition, giving the wets on the face of the returns a victory of 1137. The drys are convinced that with a little closer organization, a little more sacrifice and service, they can win a splendid victory.

Knights of Columbus War Camp Fund Campaign

In April, 1917, Secretary Baker appointed a Commission on Training Camp Activities under the chairmanship of Raymond B. Fosdick, of New York. To supply the normalities of life to nearly a million and a half young men in training camps, and to keep the environs of those camps clean and wholesome was the two-fold task outlined for the Commission

When one considers that these men in camp have left their families, homes and friends, their clubs, churches and college gatherings, their dances, their town libraries, athletic fields, theaters and movie houses—in fact, all the normal social relationships to which they have been accustomed—and have entered a strange new life in which everything is necessarily subordinated to the need of creating an efficient fighting force, the importance of our work becomes apparent. An army in fighting trim is a contented army; contentment for the average man, cannot be maintained without the normal relations of life. This requires money and our motto is "not for self but for all," so please help us to help our soldiers here and over seas that they may be better able to fight our battles.

The soliciting committees are out, be as liberal as you can. Make your check payable to the K. of C. WAR CAMP FUND and mail it to Edw. Wimmer, Coshocton, Treasurer.

"Who Will Win This Battle?"

Much of your comfort depends upon knowing that your system will perform its functions properly.

Your kidneys are the filters of the body. If they become inactive and fail to eliminate the waste matter, they are apt to throw the whole mechanism of the body out of order, thus toxic poisons can accumulate in the system and be as deadly as snake venom.

Besides causing the minor ailments of rheumatism, sciatica, lumbago and backaches, neglect of the kidneys is apt to develop into more serious diseases, such as diabetes or stone in the bladder.

Rid the body of toxic poisons—clean the bladder and kidneys and cure the twinges of rheumatism with Anuric (double strength).

Anuric was first discovered by Dr. Pierce, and has benefited thousands of sufferers as well as appeased and eliminated the ravages of the more serious kidney diseases. Now procurable at any good drug store.

If you have rheumatism or kidney trouble, why not let Dr. Pierce's Anuric (double strength) win the battle?

CLEVELAND, OHIO.—"Both my husband and I are very enthusiastic over what Anuric has done for us. It cured me of rheumatism in the hands and feet, and also uncomfortable bloatings. Just a week's treatment with Anuric made me feel like a different person. My husband took this medicine for backache and high colored kidney excretion and it made a wonderful change in him. The backache has entirely disappeared and the water has cleared up splendidly. We cannot say too much in praise of Anuric. In fact, I wouldn't keep house without it."—Mrs. CORMORLEY, 2527 Bower Avenue.

NEVER IN THE WORLD COULD I BELIEVE IT.

This Lady Was Told by Many That Pepsinco Would Help Her, But She Just Would Not Believe it.

Mrs. G. wasn't sick, but she had the same trouble after every meal. Heavy load, pain, bloating and sourness. The condition would pass off in time, but she really dreaded her meals. She often read of Pepsinco, and often heard of it, but never gave it enough thought to stop at the drug store and get a package, until a druggist gave her a small sample.

Mrs. G. now recommends Pepsinco to everyone she meets who complains of feeling bad. Never has Pepsinco had as good a booster as this lady since she discovered how good it really is.

Pepsinco is made to help all bad conditions of the stomach. It never fails. It is sold and recommended by all druggists. Positively guaranteed.

Richmond, Ind.—"For two years I was so sick and weak with troubles from my age that when going up stairs I had to go very slowly with my hands on the steps, then sit down at the top to rest. The doctor said he thought I should have an operation, and my friends thought I would not live to move into our new house. My daughter asked me to try Lydia E. Pinkham's Vegetable Compound as she had taken it with good results. I did so, my weakness disappeared, I gained in strength, moved into our new home, did all kinds of garden work, shoveled dirt, did building and cement work, and raised hundreds of chickens and ducks. I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound and if these facts are useful you may publish them for the benefit of other women."—Mrs. M. O. Turkey For Five Costs Small Roll

There is some difference in the price of a Thanksgiving dinner ten years ago and today. That popular piece de resistance, the Thanksgiving turkey, sold for 13 cents a pound ten years ago, and today it sells for 30 cents per pound

The price of a Thanksgiving dinner for five, ten years ago amounted to $2.06 and was in no way stinted at that. The cost of the same dinner today is over double that amount or $6.20 Here is the menu: Roast Turkey, Oyster dressing, Cranberries, Sweet potatoes, Celery, Pumpkin pie, Oranges, Coffee and Cigars.

FREMONT—A bull gored Peter Bode, 55, farmer, to death.

Letters from the BOYS

The Tribune and Times-Age is in receipt of an interesting letter, from Frankli Strasser, who describes the camp routine at the big army cantonment at Montgomery. He says he is greatly pleased with the consolidated papers and says, "I think Coshocton should be proud of a paper like you are now putting out."

Continuing he says: "Things are just about the same down here, and as usual each day brings forth new rumors. Really, in the army you cannot believe anything you hear and I surely was surprised when I read one day in The Tribune, the letter from a soldier from here saying that we had had a foot of snow. It sure has been cold enough, but as yet we have seen no snow.

It may be of interest to have a description of one of our days in the sanitary train, so here goes:

A little while before the sun has a chance to take a peep at Camp Sheridan from the edge of the horizon, the first bugle call of the day jars unpleasantly upon the air of the sleeping camp. The sleepers in the tents stir uneasily in their bunks realizing that something unpleasant is at hand. A tow-solled head is raised from underneath the blankets and the ears assume the position of "attention," for a brief second. "Was that first call, fellows?" The voice is pleading as if desiring a contradiction from the others. "Surely it is not 5:30 yet, what does any army want to get a guy up at this time of night for?

But wrist watches confirmed the suspicion and then an argument ensues as to whose turn it is to get up and build the fire. This is is until it's too late for any one fellow to do it and all pile out and throw some paper and wood on the fire and set a match to it and then it gets hot enough to warm anyone. The boys are nearly dressed. The bugle sounds Reveille. The boys run out, fastening belts and buttoning shirts, to fall in at the first formation of the day, and the most unpleasant moments of the soldiers day, that of getting up is over with.

The first real work of the day comes at 7:15, when everyone has to fall in for an hour's calisthenic exercise. At this formation all leggins and hats are left off. The most trying exercises that can be thot up, are worked out on the soldiers at this time. With this period of torture and the last period of the day, which is spent in running hard games, the fellows muscles ache, and in the morning before they get limbered up, you can notice a good many limping around. But everything has or should have a purpose, and sometime we will all be toughened up, so that what is aching muscles sore and back ache now will not feaze us, and when the time comes we will be ready to be used by our government.

The present cold snap has made the conditions comfortable, stove, a necessary part of the furniture and of course we get some more exercise by chopping wood, for it.

Of course, we had breakfast after Reveille, at 6 H., then from 7:15 to 8:15 we have the aforesaid calisthenics. From 8:30 to 10:30 we have drill and then one hour of school.

Just after the morning school, the mail is delivered and that surely is an interesting period for most of us.

At 11:30 we have mess, then from 1:00 to 2:00, we have two classes of school and from 2:00 to 4:00 same. At 5:00 retreat and mess.

Retreat is a very impressive ceremony at 5:00 at the camp and is very pretty.

We have Wednesday and Saturday afternoons off and all day Sunday, unless we are on one of the necessary details, which makes it very pleasant.

The weather has been wonderful, up until the last two days, but it is surely cold enough now.

I think I have said enough for this time, so I'll close with best wishes for your continued success, I am,

Sincerely yours,
Frank V. E. Strasser.

SALE OF AUTOS NOT AFFECTED BY WAR

COLUMBUS O., Nov. 28—The sale of autos in Ohio has suffered little from the effects of war times. State Auto Register McCurdy said today. The number of licenses issued this year will show an increase of 100,000 over the number of last year, he said.

Eight Men Known Here Commis'nd

Sixteen hundred happy men were commissioned officers in the United States army today at the close of the second Officers' training camp at Fort Benjamin Harrison, Ind.

Four young men from Coshocton county attended the training camp. J. R. McCabe, of Walnut street, was commissioned a captain, Oliver J. Buser, of Fresno, was made a first lieutenant in the infantry. Eugene Lynde of South Fourth street, was also commissioned first lieutenant, infantry. The same commission was granted to Benjamin F. Warner, of the Park Hotel.

Paul Secrest, son of Rev. and Mrs. J. S. Secrest, formerly of this city and now of Akron, was commissioned second lieutenant.

Henry R. Moore, of Frazeysburg, received a commission as second lieutenant. Elmer C. McCann, also of Frazeysburg, was made a captain.

Lloyd Gehres, of Waverly, formerly a member of the Coshocton high school faculty, was commissioned first lieutenant.

A first lieutenancy was given to Robert B. Putnam, of Millersburg.

Capt. McCabe and Capt. McCann will report for duty Dec. 15.

The other commissioned men in the above list will receive orders concerning the time and place that they should report some time in the future.

Athletic Club Is Planned By Local Wrestler

William Ninich, professional wrestler, backed by several local devotees of the mat sport will open a Coshocton Athletic club in the second story of The Tribune building within the next few days. Ninich, who bears an enviable reputation as a middleweight wrestler, hails from Texas and is a finished atiilete. It is his purpose to teach wrestling, boxing, physical culture, body building and kindred sciences to local men who are interested. Membership cards will be placed on sale soon.

The rooms leased by Mr. Ninich are splendidly adapted to his purpose. They are furnished with hot and cold running water and will be equipped with the latest modern appliances calculated to make strong bodies of weak ones. Everybody is eligible to membership, and the school will be conducted on scientific and clean, moral lines.

Mr. Ninich has located in Coshocton for the winter.

The Belvedere and the Colonial Clubs will play a football game Thanksgiving day at the fairground in the morning.

Over two hundred tickets have been sold for the game and the players have been practising every evening in anticipation of the match.

The keen rivalry existing between the two organizations promises that the game will be worthy of watching.

Following is the lineup of the two teams with their substitutes for the game Thursday:

COLONIAL—Tarcraft, Dupper, D. Tidball, Backer, P. Clark, R. Tidball, C. Cancos, M. Clark, Holmes, Mercer, Tarney, Grimm, Hussey, Bordenkircher, McClain.

Quantity Is Aim of Red Cross Here

The Coshocton County Red Cross work rooms are turning out splendid work but they are not turning out enough," said Mrs. Ewing, of Cleveland, state supervisor of Hospital Supplies in the Lake Division of the Red Cross. Mrs. Ewing was in Coshocton Monday for a few hours and while her commendation of the local organization was enthusiastic she made a plea for more bandages, more sheets, more pillow cases, more hospital supplies of all kinds. Also more sweaters to protect the soldiers from the penetrating cold to which thousands more thousands of men are subjected now.

More work means more workers. The women now enrolled for this branch of service are working to the limit. They must be reinforced by workers. Scarcely more than two hundred women (including all the auxiliaries) have accomplished the splendid work which has already been done. This number should be quadrupled—more than that, every woman in Coshocton County should realize that without a part of each week devoted to Red Cross work she is terribly remiss in her duty to her country.

Household demands must be adjusted to meet these new demands, social engagements should be cancelled; the nation's business now is to win this war; men and women alike must do not their bit but their all.

The work room will be closed on Thanksgiving day. It should be crowded in order that the week's output shall not fall short. If you have never been enrolled there is not a better time than this Thanksgiving season.

City subscribers should insist on a receipt from the carrier.

Bries Expects Big Game Here Next Thursday

All members of the Independent football team are requested to report for practice at the grounds near the Parochial school Tuesday evening.

Manager Bries makes the request that any of last year's players who desire to play in the game Thanksgiving day report for practice tonight.

Four professional football players will be here to strengthen the local line-up, is the statement of manager Bries.

The Massillon West Centers, one of the fastest professional teams of their class in the state will be the team that will line-up opposite the Independents Thanksgiving Day afternoon.

Lieutenant Frank Love and Harry Cohen, two local stars now stationed at Camp Sheridan are expected home over Thanksgiving and will play in the game, says manager Bries.

Drys Make No Mention Of A Vote Recount

(International News Service)

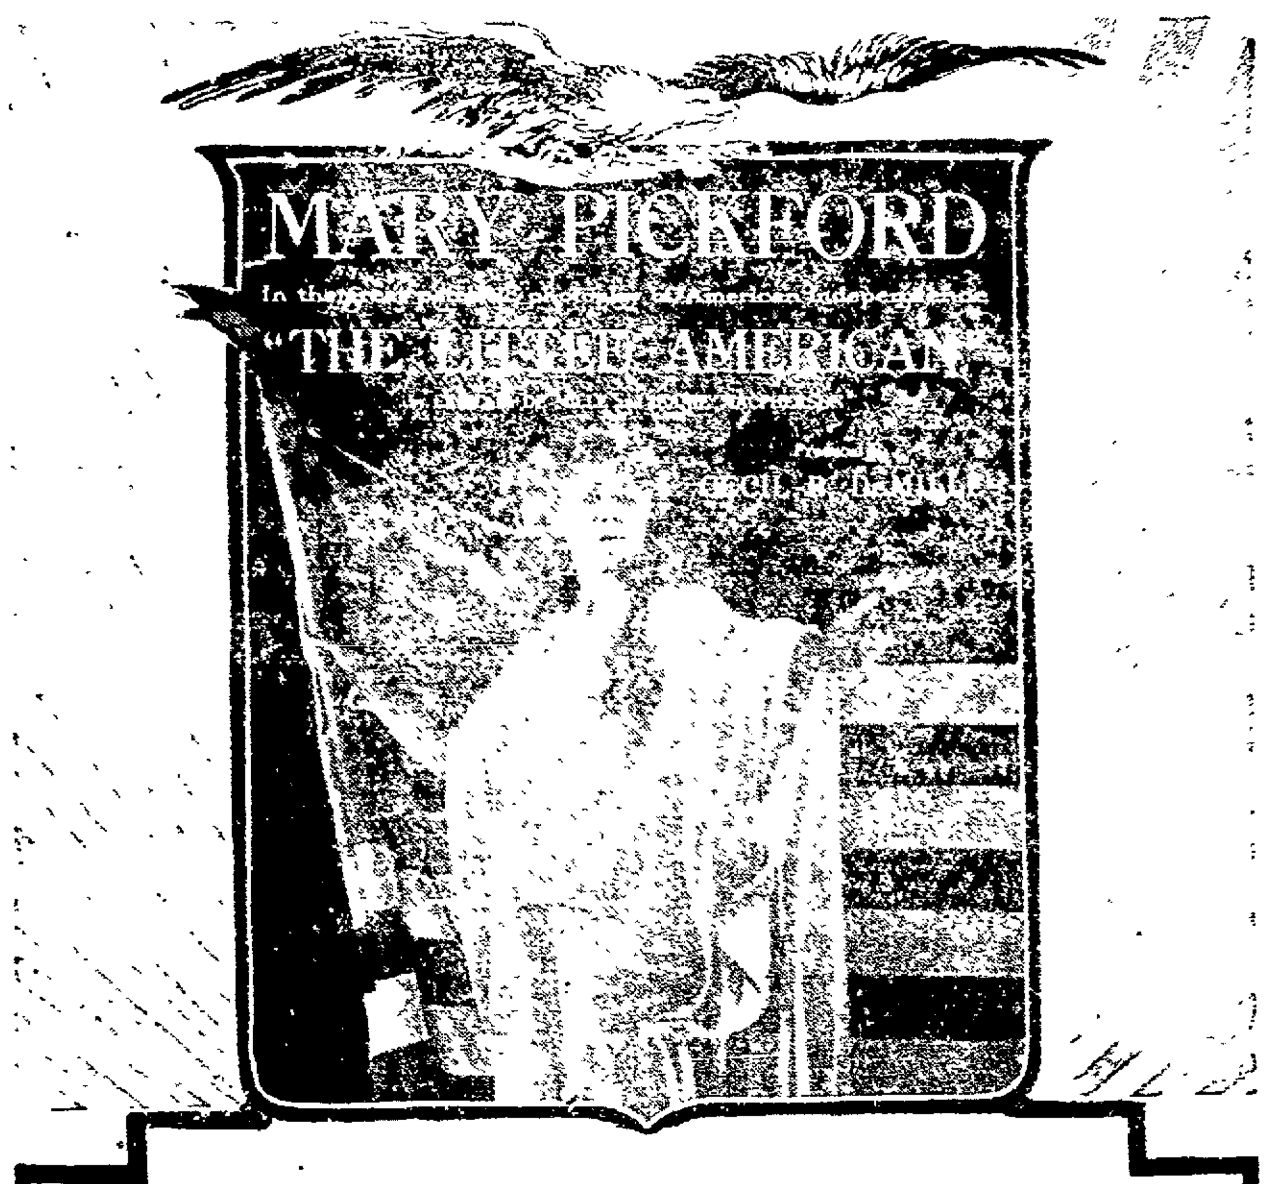

COLUMBUS, NOV. 28.—The 10 delegates attending the meeting of the Ohio Dry Federation had not taken up the question of a recount of votes cast in the recent prohibition election, late this afternoon. Most of the day was given over to consideration of reports from county chairmen. The belief was general that no recount would be demanded and that plans would be made for a referendum on the liquor question next year.

Eight Held For Murder

(International News Service)

NEW YORK, NOV. 28— One of the most amazing stories in the annals of New York crimonology became public today when Ralph Daniello, self confessed gunman was arraigned in the King county court. Daniello has implicated himself in [illegible] as an assassin and gave information which lead to arrests in seven other murders.

NEW YORK, NOV. 28—Eight men were held in New York and Brooklyn today on information given by Ralph Daniello regarding 23 alleged murders by members of gang with headquarters in Brooklyn. Eighteen of the alleged murders, have been verified.

According to Daniello's story the working of the three alleged bands of criminals who have levied tribute and exacted vengeance in the Italian section of the city were revealed. They include ten bosses and about 60 gunmen. Daniello is said to have confessed participation in six of the 23 murders he disclosed.

Daniello was returned to Brooklyn recently from Reno, Nev., where he was arrested.

K. of C. Will Continue The Big Campaign

Owing to the nature of the labor being done in the K. of C. campaign it will be practically impossible for the committees to finish their work in this county by the end of the week as was planned at first.

Seventeen committees were at work over the city Tuesday and it is thought that the amount of money collected for the [illegible] work was up to the stand and also no totals could be given out as part of the committees did not report.

"The fact that many of the solicitors for the campaign fund cannot get away from their regular work during business hours is making it a difficult task to get over the territory mapped out [illegible] in the city, without speaking of the county precincts," was the statement of T. J. Hanley, chairman of the executive committee Wednesday afternoon.

Just a few spots over the city have been touched by the solicitors in their [illegible] says Chairman Hanley. It is expected that by the time the campaign closes the county will have been thoroughly covered.

The local campaign will be compelled to close in time for all reports and subscriptions to be forwarded to the war work council of the K. of C. before December 15. All reports must be filed before that time altho it is not known exactly what date the local campaign will come to a close.

Wherever possible workers are securing substitutes to work for them while they give their time to the K. of C. campaign. The scarcity of help is another drawback that is seriously interfering with the work of the solicitors.

It is thot that some plan will be worked out in short order to take care of all these handicaps and that the work will be pushed to a successful finish in the near future.

A NOTABLE UTTERANCE

The quality of self-control is the first essential in citizens of a democracy. Taken as a whole a people who can't control themselves are incapable of maintaining a democratic form of government. We believe these statements are self-evident.

And not only are they self-evident, but they are so important just now when, under the guise of patriotism mobs are beating into insensibility men who disagree with the views of the mob, that we wish wider publicity had been given the words of President Wilson in his recent speech at Buffalo.

He touched on this very point of the obligation of self-restraint which rests on every citizen of a democracy. For, no matter what we may think of the views of our neighbor, he still has a right to whatsoever views he cares to entertain, so long as he does not advocate the violation of law or interfere with the regularly constituted processes of government.

Many of our metropolitan papers reported the President's Buffalo speech in full. Many others used extracts. It is significant that those which printed only portions of this notable address omitted, for the most part, the following paragraphs:

"I have been very much distressed, my fellow citizens, by some of the things that have happened recently. The mob spirit is displaying itself here and there in this country. I have no sympathy with what some men are saying, but I have no sympathy with the men that take their punishment into their own hands, and I want to say to every man who does join such a mob that I do not recognize him as worthy of the free institutions of the United States.

"There are some organizations in the country whose object is anarchy and the destruction of law, but I would not meet their efforts by making myself a partner in destroying the law. I despise and hate their purposes as much as any man, but I respect the ancient processes of justice, and I would be too proud not to see them done justice, however wrong they are. And so I want to utter my earnest protest against manifestation of the spirit of lawlessness anywhere or in any cause.

"Why gentlemen, look what it means: We claim to be the greatest democratic people in the world, and democracy means, first of all, that we can govern ourselves. If our men have not self-control, then they are not capable of that great thing which we call democratic government. A man who takes the law into his hands is not the right man to co-operate in any form of or development of law and institutions."

OUR "COALITION CABINET"

Several of the belligerent nations have formed "coalition cabinets," aiming to unify their people for war purposes by giving rival factions a voice in the government. It has been suggested that our government do the same thing—that the president form a cabinet consisting of able men regardless of party.

The Cleveland Press springs a surprise by remarking that "Uncle Sam has done that very thing." The President has kept his old cabinet intact; the routine work of the ordinary administrative departments is still in the hands of his original appointees; but the cabinet has been enlarged by the addition of various departments dealing with new, vital phases of war administration, and the heads of these departments have been chosen solely for their special fitness and ability.

"Hoover is Secretary of Food," says the Press. "Willard is Secretary of Transportation; Hurley is Secretary of Shipping; Gompers is Secretary of Organized Labor; Garfield is Secretary of Fuel; Lovett is Secretary of Distribution of Raw Materials; Coffin is Secretary of Aviation.

"For all practical purposes each of these leaders is a member of the cabinet. None of them represents a party, but all of them represent the people of the United States. All of them are encouraged and supported in their work by the patriotic press, with no thot of partisan politics."

This is a pleasing and reassuring view of the matter.

It is all right to talk about conserving the pie and cake output but it is hard to get a fellow to take much stock in the talk about conserving the coal supply when November winds are whistling a wintry dirge at windows and doors.

The czars of fashion announce that "long skirts are coming back." We don't believe they are, but if they do you can ask almost any one on the street and he can tell you the exact day.

We will stand for a Thanksgiving mince meat pie without any meat in it, but be blamed if Hoover or any of 'em can bring us to a pumpkinless pumpkin pie this winter.

Secret service men in Washington claim they have found a million dollars' worth of fresh eggs. Wonder where this foxy old hen could have hidden her nest away?

The allied nations are asking: "What about Russia?" From the viewpoint of the allies an answer is overdue. Is President Wilson big enough to give one?

THE CHEERFUL MOTORIST
BY WALT MASON

I crawl beneath my balky car, with fifteen kinds of wrenches, and tinker where its vitals are, 'mid gas and grease and stenches. When done I am a sight to see, a sight for sore-eyed dragons; and passing horses shy at me, run off and bust their wagons. I skid into a muddy ditch and hail some passing granger, to bring his mules along and hitch, and haul me out of danger. I wallow round in squashy mire, cold rain upon me drizzling, removing from the wheel a tire, and use some language sizzling. Sometimes the lamps won't shed a ghost of their accustomed splendor, and then I run into a post and break a costly fender. A farmer stops me now and then, and asks me, in his dander, to pay for running down his hen, his sheep or his gander. O'er arid hills I jaunt along, thru meadows cool and shady, and something's always going wrong, whene'er I [illegible] journey. But when I motor home again, from my adventures shocking, and mingle with my fellow men, you ought to hear me talking! "I had the finest time," I yip, while truth grows vague and hazy; "no accident on all the trip—my car is sure a daisy!"

war," a copy of which was received here today from Berlin.

It is written by Lieut. Gen. Baron Von Freytag-Loringhoven, who was quartermaster general of the German army when Gen. Falkenhausen was chief of staff. Gen. Von Freytag is now stationed in Berlin as deputy chief to the general staff. His book breathes blood and thunder preparedness.

After arguing that the German army must be expanded after the present conflict is over, Von Freytag continued:

"We shall have to continue to pursue this road in the future quite apart from the necessary increase in garrison artillery and technical troops. Moreover, when the number of those who have fought in the great war has fallen away, we shall have to aim at subjecting at least to a cursory training the men of military age who are at first rejected, but who, in the course of war have turned out to be fit for service, so that when war breaks out they may form a generous source of reserves. Only so can we arrive at a real people's army, in which everyone has gone thru the school of the standing army.

"What is the use of all this? It may be asked. Will not the general exhaustion of Europe after the world conflagration put the danger of a new war in the background?

"No one can undertake to guarantee a long period of peace. Lasting peace is guaranteed only by strong armaments. Moreover, world power is inconceivable without striving for expression of power in the world and consequently for sea power."

Gen. Von Freytag then argues for a greater German navy to cope on the sea with the increase of the army on land. He says:

"In the future, as in the past, the German people will have to seek their cohesion in its glorious army and in its belaurelled young fleet. Our business is to maintain the fundamental ideas of war as they lived in the German army up to 1914, to seek them in the experiences of the present war and to make the fullest technical use of them. But we must do all this without giving an entirely new direction to our thinking or strategy and tactics.

The last chapter of the book is called "Still ready for war," and argues that Germany must be ready to plunge into fresh conflict after the present whirlwind of bloodshed and horror is over.

Von Freytag expresses the opinion that Germany, by her position in Europe and in world politics, "German soldiers must reject all ideas of pacifism and internationalism."

"Germany did not have nearly enough armaments on land and sea when the present war began," writes Von Freytag. "And this must be remedied in the future. More money will be unconditionally required to equip the Fatherland as she should be equipped."

In one chapter on "training," the writer says that the sports of German boys must be utilized for military purposes and that the principle of two and three years compulsory military training must be continued.

SILVER SPOONS AND HORSE SHOES GALORE

Joseph Robson, of East Chestnut street, will not pay a fancy price for his Thanksgiving turkey.

Robson was walking along North Fifth street Wednesday morning at seven o'clock when an express train went thru. A large turkey jumped from one of the express cars and Robson immediately gave chase. He caught the turkey after a run of several squares and will have it for dinner tomorrow.

The Jollier

Croxton says "beet sugar should be sold for not more than nine cents per pound." He might well have placed the emphasis on the first five words.

Might as well quit knocking about the fuel situation and get out the bucksaw.

"The red runnin'-geared buggy has give way to the mottersickel as a pleasure source," says a country correspondent.

She might have added that there is no whip to wrap the lines around on that named vehicle.

All of which proves we are growing weaker and wiser.

An overworked pleasant smile often is mistaken for a silly grin.

The less you say the more explaining you have to do afterwards.

Silence is golden, if it doesn't approach the nobody-home stage.

Where the 1860 girl used to blush and court'sy the 1917 "Jane" merely blats.

supply wagons and long lines of artillery.

An oversight in two directions has helped to frustrate the carefully laid plans of the German general staff. First, they failed to count upon the true fighting spirit of the Italian soldiers; seconds they failed to take into consideration the possibility of quick aid being given to the Italians by the British and French.

Even should the Italians and their French and British allies fall back to another line, the defenses of which are already being prepared, it is confidently believed that the Germans will be unable to advance farther than the Venetian plain and a line lying from Lake Garda thru the mountains to Verona. Such a retirement by the Italians is not yet indicated, but even if it is made the Austro-German armies, for all their sacrifices, would dominate only the extreme northeastern corner of Italy.

The magnitude of the preparations that are being made on both sides for a continuation of the struggle is shown by the closing of the Austro-German frontier and the Franco-Italian frontier.

These steps have been made to cloak the amount of reinforcements that are being sent into the arena of action in Northern Italy.

Dispatches from Rome today said that the struggle between the Piave and Brenta valley is continuing. Powerful Austro-German attacks were made in the Brenta valley, but all have been repulsed with severe losses.

In intervals of the Teuton assaults the Italians are counter-attacking all along the line.

This Ham Proved a Copper Instead

(International News Service)

MEMPHIS, TENN., NOV. 28.—For many years John Thomas, a negro, never bot any meat or flour. He worked at a wholesale house. Whenever the family larder got low John would fasten a sack of flour and a ham to the end of a rope, lower it in the elevator shaft, and, after everybody else had left the building, haul it up and carry it away. Last week John thot the load was uncommonly heavy. He was certain of it when he opened the bag. A policeman stepped out and a little later John occupied a seat in the patrol wagon.

Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomain-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with a bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store, and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Remember inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate thru every air passage of the head; soothe and heal the swollen, inflammed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.

YEGG WHO BLEW SAFE A CAPTIVE

STRASBURG, NOV. 28.—Joe Cardano, 27, expert safeblower, is a captive in the Summit county jail in Akron, while merchandise valued at $300, part of the loot in the daring robbery of the Garver store at Strasburg two weeks ago has been recovered at the home of Cardano's sister, Miss Tiny Mercurio, 4312 Woodlawn avenue, Cleveland. Cardano is held on a charge of burglary in connection with the looting of a Hudson store. A warrant for his arrest for the Garver robbery is in the hands of Akron officials and will be served upon Cardano in the event of his release under $2000 bond.

Cardano was arrested by Cleveland detectives. He was turned over to Hudson authorities and from there was bound over to the Summit county common pleas court in $2,000 bond for burglary.

After Cardano was removed from the Hudson jail a formidable-looking bomb was found near his cell. It is believed friends of the yeggman intended to blow the jail and effect his release.

In a room occupied by Cardano at the home of his sister in Cleveland a large quantity of jewelry which has been identified as that taken from the Garver store was found. Mr. Van Cuten, jeweler of the Garver Bros. company identified the jewelry as that taken from the Strasburg store. Part of the jewelry bore the trade mark of the Garver store.

Steps were being taken today to send Henry Correll aged nightwatchman of the Garver store who was tied hand and foot to a chair and blindfolded by the yeggmen while they looted the store, to Cleveland in order to identify positively, if possible, Cardano. Correll saw only one of the three men who entered the store. He was blindfolded before he could get a glimpse of the other two burglars.

The Garver burglary was one of the most expert safe blowing jobs ever pulled in Tuscarawas county. A large vault and a smaller safe, supposed to be burglar-proof, were blown by the yeggmen. Jewelry, merchandise and money of the value of $2,000 were taken.

When arrested Cardano is said to have been wearing an overcoat taken from the Garver store. Four heavy overcoats were stolen, leading to the belief that four yeggmen were implicated in the safe-blowing, one remaining in the automobile in which the burglars came, to guard while the other three looted the store.

KIDNEY TROUBLE NOT EASILY RECOGNIZED.

Applicants for Insurance Often Rejected.

An examining physician for one of the prominent Life Insurance Companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

We find that Swamp-Root is strictly an herbal compound and we would advise our readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention The Coshocton Tribune.

A SONG FOR THIS THANKSGIVING DAY.

By Charles Hanson Towne of the Vigilantes.

You can see them on the side streets and on the Avenue—
Our soldiers in their khaki, our sailors in their blue—
The lads who'll soon be Over There to fight the fight for you.

Young boys and glowing, with a high flame in their breast,
Ready for the trumpet call to follow with the rest.
Before they go, take one at least and bid him be your guest

Now it is Thanksgiving time, and many a lad has come
At the call of his country, at the sound of the drum,
Far from his hearth-fire, and far from his home;

Many a lad from Texas, and many a boy from Maine,
Lost in your city like a young bird in the rain.
Lonely in your big town, tired of soul and brain.

Many a lad from Tennessee, legions from Illinois,
Youngsters from old 'Frisco, from Denver and Troy——
Take one home to dine with you, and let him share your joy

Set a place for one of them at your groaning board,
Watch the smile upon his face, hear his happy word,
And then, for your blest privilege, kneel down and thank the Lord!

SEASONED FRENCH AND BRITISH VETERANS NOW STRENGTHING ITALIANS

ROME, NOV 27—Seasoned French and British veterans who have faced German drum fire, poisoned gas and liquid fire on the western front are now joining the Italians in counter attacks against the Austro-German invaders on the Asiago plateau. Advices from the front today told of the arrival of "fresh reinforcements."

The formidable Austro-German attacks between the Piave and Brenta valleys have continued with the Teutons maneuvering to deliver a crowning blow, but so far the gallant resistance of the Italians have frustrated all German plans.

There is heavy fighting around Monte Tomba, which is regarded as a critical point. The Germans, early in their drive made a slight gain, but since then they have been held on the slopes by Italians. If the Germans and Austro-Huns can break thru at Monte Tomba and overrun the plain it would seriously threaten the Italian's line on the Piave by cutting the Italian lines of communication. Bulgarian troops are reported to have reinforced the Austro-German armies on the Upper Piave and in the Monte Pertica sector.

QUICK HELP FOR A CROUPY CHILD SIMPLE-HARMLESS

When your child is croupy, cross feverish, full of cold, restless and irritable, try this:

Get a 25c tube of NOSTRIOLA Balm of your druggist, apply to nostrils and on chest and throat—also under armpits and on soles of feet. NOSTRIOLA is absolutely harmless (formula on every package) and is endorsed by leading physicians. This simple common-sense treatment will clear the head, instantly stop that terrible chokey, croupy cough and quickly change a half-sick, fretful child into a happy playful one.

The nostrils and air passages are the breeding places for disease germs. "NOSTRIOLA," either Balm or the Vapor Spray, is intended to prevent infection and the special Nostriola Atomizer Outfit belongs in every home, especially where there are children.

The old method of dosing the stomach for colds and croup is wrong and harmful. Get a small tube of Nostriola or an Atomizer from your druggist today and you'll wish you had tried this simple treatment sooner.

Shortage Is Found After Banker Dies

POLO, ILL., NOV 27—Depositors in the Barber Brothers & Co. bank, probably will receive less than 60 per cent of their deposits it was estimated today as result of the discovery of a shortage of approximately $300,000 in the bank's funds.

Discovery follows the suicide of Bryant H. Barber, president, who leaped into Rock River at Grand Detour ten days ago. The shortage it is believed, furnishes a reason for Barber's suicide.

Speculation in Wall street is blamed for the loss of the funds. Barber is said to have dealt heavily in stocks during the last few months.

Big Eats Are Ordered For Sheridan Men

A letter from Lowell Miller at Camp Sheridan, Montgomery, Alabama tells of the Thanksgiving dinner that the boys at the camp will enjoy Thursday. Following is the schedule which the Coshocton boys in Company with the others at the camp will observe on Thanksgiving Day:

Camp Sheridan is to enjoy a general holiday Thanksgiving day. In order not to interfere with the services which include a big field mass the first ever held at a camp, the athletic program, a field meet embracing fourteen events will be staged Wednesday afternoon and on Thanksgiving afternoon there will be a cross country run, football and the athletic carnival at night.

Every mess sergeant has carefully laid his plans for the Thanksgiving dinner, and some idea of what the boys are going to eat can be had in knowing the bulk in which things have been ordered. There will be 20,816 pounds of turkey; together with 8,000 bundles of celery; 20,000 pounds of potatoes, 9,600 pounds of cranberries, 32,000 pounds of bread; 9,600 lbs of sugar. Also there will be 30,000 oysters, 1200 pounds of cakes, 9,600 apples, 9,600 oranges and 4,000 bananas, and other odds and ends. There will be either a cigarette or a cigar for every man in the division.

FIGHT FOR YOUR LIFE

Duty Demands Robust Health

Fight to get it and keep it

Fight—fight day in and day out to prevent being overtaken by ills and ails. Keep wrinkles from marring the cheek and the body from losing its youthful appearance and buoyancy. Fight when ill-health is coming with its pallor and pains, defects and declining powers. Fight to stay its course and drive it off.

But fight intelligently. Don't fight without weapons that can win the day for without the intelligent use of effective weapons the pallor spreads and weakness grows and a seemingly strong man or woman ofttimes becomes a prey to ills after all.

You will not find this class of persons in the hypoferrin ranks. No unhealthy, dull, draggy, droopy persons in that line. It is a hale, hearty, robust aggregation of quick-steppers who view life in a joyous frame of mind and are mentally and physically equal to any emergency. Hypoferrin stands for sound body and sound mind—it is the invigorating tonic of the times—powerful and unsurpassed as a health restorer, vitalizer and health preserver. Fight to hold the vigor of a sound body with hypoferrin or to stay the process of decay and restore health and strength—you win. This tonic of amazing, wonder-working properties has been approved by physicians as a restorer and safeguard of health. It is a thoroughly scientific preparation of the very elements necessary to tone up the stomach and nerves, to build strong, vital tissue, make pure blood, firm flesh and solid, active, tireless muscles.

Hypoferrin contains those mighty strength-producing agents, lecithin and iron peptonate, in a form best adapted to benefit the body and its organs. Its ingredients are absolutely necessary to the blood. In nine cases out of ten run-down conditions, sallow, pale complexions that "all in" feeling and feeble bodies are due to lack of lecithin and iron peptonate in the system.

Your mental and physical strength and endurance depends upon a blood and iron peptonate laden blood, steady dependable nerves and a healthy stomach. With these you can meet life at any angle.

This wonder tonic, hypoferrin, which is as perfect as science can get it, ... meets every essential demand of the human organism. It is safe and sure ... boon to run-down, worn-out men and women. Hypoferrin means nature's own way of bringing color to the cheeks, strength to the body and keeping the vigor and buoyancy of youth. The powder and paint way of "making beauty" is not needed by hypoferrin women and girls. Their blood fed with nature's beauty stores, creates conditions that give firmness and grace to the body and the glow of health to the cheeks.

No need of going through life sickly and always feeling miserable in this age of medical science. Join the hypoferrin ranks. It puts into you the spring, zest and vigor you ought to have ... life into your body and mind ... the confidence that you need ... world on an equal footing with ...

Hypoferrin may be had of your druggist or direct from us for $1.00 per package. It is well worth the price. The Sentanel Remedies Co, Cincinnati, Oh.
